I gave the initial reward to the person that I think who deserves to receive, and that is my neighbor who sells rugs to provide for her family. Though in the picture she was not carrying any rugs there because she was about to get it from her supplier but then I have to take that opportunity to give her the money so that she will use it for a great cause.

I give it to the little boy the nephew of my friend that has appendicitis and needs financial assistance for his operation. Thank you, Success and Money Foundation, for the opportunities to do more help to other people by this program... "Make a Difference." The money I received from the SAM Foundation was given to this little boy who has an appendicitis and need to undergo operation.

I send money thru gcash, with the relate family and tell them what is the purpose why I send help to them even in a small amount. Yes! It is a small amount, but it is from the man who has a big heart who is willing to help people to change their lives, "Mr. Tom Painter". As he is the founder of this foundation that believe every life is precious.

Thank you so much sir Tom and Wife for the expanded knowledge and experienced for knowing more How to make more money and for the Wealth Formula.

I saw a woman from school picking up her grandchild. And I decided to choose her as recipient of my make a difference. Her name is Mercy she lived with her grandchild and her husband, and her husband is a carpenter. I gave her 1 kilo of rice and some biscuits for her grandchild. The simple smile on her face shows how she's happy receiving the item I gave. She says even if it's small amount but it helps a lot for their daily needs. She extends greetings to you sir tom, Thanks to you sir tom and to success and money foundation. Helping someone in need makes me feel happy.

This person that I was chosen is a disable or PWD person... I choose him because, I know he deserve to be help. He is a disable person, but despite of his situation he tried to help to his grandmother in the way, every morning as he wakes up he picking up garbage to their neighbors to get money. Even if he is hard to walk because of his disability legs and mind but he sacrifice to earn money that can help their needs. Every time I saw him carrying a sack of garbage to have money. It really breaks my heart. That's why I choose him to help with the 100 pesos I received from the Make a Difference program even though it is a small amount but It is a big help for him... Because only his Lola taking care of him, his father was dead already and his mom don't take care of him only his widowed grandmother.

My husband and I decided to bought 5 kilo of rice. We decided to buy rice than other stuff because rice is more important everyday needs and as we observe rice is what they need more because they have garden of vegetables to be pair of the rice. We gave it to Ate Marissa family because they deserve it and they really need it for their everyday needs since they're 3 person in the house and only ate Marissa husband looking money for their needs by driving trisikad.

Kami sa akona Asawa ni desisyon nga e usa Ang amoang nadawat nga reward ug kini gipalit namog bugas Kay mas gikinahanglan man kini sa matag adlaw. Ug Ang bugas mas importante pa sa tanan. Amoa gihatag nila ate Marissa nga pamilya Kay sa nila ni ate Sally Kay mas gikinahanglan man kini nila Kay tungod sikad ra Ang ilahang gikuhaan ug pang adlaw^{2x} nga pagkaon. Unya si ate Marissa USA ka PWD naay deperensya sa pananaw maong iyaha ra bana nangita ug panginabuhi. 3 Sila sa balay nagpuyo.

My wife and I decided that the reward we received was that we bought rice because it is more needed every day. And Rice is more important than anything else. They gave it to sister Marissa's family than to sister Sally's because they needed it more because they were deprived of another day's worth of food. Then sister Marissa, a PWD,

has a visual impairment, so her husband is the only one who earns a living. 3 They live at home.

I bought milk and fudge bar to Ejely Bilangdal for her 2 year old son. She is a single mom and she is working in a mall here in lapu lapu city, she is saleclerk here. Id salute to a single mother like her kasi kahit anong hirap tiniis nya para mabuhay niya ang anak niya. Siya ang napili kong bigyan kasi nakita ko kung paano niya hinarap ang mga pagsubok sa buhay at habang binigyan ko siya sabi pa niya sa akin na "napaaaga pala ung birthday ko may birthday gift na ako, yeheey!!!" and nalaman ko kasi na bday pala niya ngayong nov 14 at sabi pa niya na kahit wala daw para sa kanya basta masiguro lang na may makakain yong anak niya sa sapat na daw yon. Wala na din po siyang ina kasi patay na daw kaya nagsikap siya para mabuhay sila nang anak niya. Grabe ang sarap pala sa pakiramdam na nakita mong gaano kasaya yong binigyan mo parang lumulukso yong puso mo sa tuwa, Kaya sobrang pasalamat ako sa foundation na to specially sir tom for giving me the experience like this and i thank also our Heavenly Father that he gave me this foundation...God bless

I bought milk and fudge bar to Ejely Bilangdal for her 2 year old son. She is a single mom and she is working in a mall here in lapu lapu city, she is a sales clerk here. I salute to a single mother like her because no matter how hard she endured so that her son could live. She is the one I chose to give because I saw how he faced life's trials and while I gave him a gift he told me that "my birthday is so early I have a birthday gift, yeheey!!!" and I found out that it's his bday this Nov 14 and he even said that even if he doesn't have anything for him, he just needs to make sure that his son has enough to eat. He also doesn't have a mother because she is said to be dead so he worked hard for them to live as his children. It's a great feeling when you see

My one man that I always see in the square is sleeping there, I noticed that he seems to have been abandoned by his family, so I approached him with his food, dishes and bread, I also gave him money to buy even a little bit, which is also a big help to him, I noticed that I gave him food, he couldn't touch the food directly, he was blind, I didn't ask him, because he can't hear very well, he quickly ate the food, he was hungry 😞 thank you sir tom for your source next time I hope to help I want to go to church and donate.

This day, I gave my reward through food or cake, because it's the birthday of there little angel the youngest one, it's her first birthday, and I really want to give this reward to them even the amount of the food is not enough to buy cake but, I have still the reward of the past meeting, so it's ok to buy, bec. It's also a Christmas, I know it's a small thing but I know this child is so happy, and I am also happy to give some small help.

This family I wanted to help because, sometimes they used vinegar and salt to eat, they go to school with no food, and I was so blessed for this opportunity to help them and to make them feel that there still people like to help them, I am here to help them and also the success and money foundation.

The initial reward went to a family of 6. They use to sell things and roam around their village. As the pandemic hits, it made really hard for them to get back on their feet because of their current situation but they are really trying their best to bounce back as soon as possible. As far as I know, they have kids who are doing well in school but sometimes these kids are going to school without breakfast.

I think they deserve to be part of the make a difference program.
